Green Economics Institute

Invitation to write in our proceedings, academic journal and books

Proceedings and written submissions

Instructions
Green Economics Institute Conference
July 9th 10th 11th 2014 at Oxford University

Book, Proceedings, and Reports

Proceedings and Papers for the Green Economics Institute, Green Economics Conference to be held at Oxford University Conference, must be submitted in .odt or .doc format and should be between 2-5 sides, 800 – 2000 words.

Our advise is to write to us with abstracts well in advance, ideally now and then if we agree in principle then to ensure your paper is with us at lest 30 days before the conference takes place to allow us time to collate, edit and print it for you.

It should be A4 fully referenced and may contain up to 4 pictures or diagrams per paper. It should contain a 5 line professional biography of you and your interests.

Papers for the double blind peer reviewed academic journal The International Journal of Green Economics should be between 2500 and 7000 words. Please include a biography.

All participants will also be given the opportunity to contribute to some of our new books. Please see the catalogue on our website. Please email to let us know what you would like to do so we can advise you and keep a space for you in the relevant publication.

Book chapters should be between 1000 and 4000 words. Please include a biography.
**Timetable for Submissions**

**Abstracts** to be submitted between 1st February 2014 and 9th June 2014.

**Finished Paper and Biography Submission** Up to June 9th, we will accept papers.

We will produce Proceedings of 300 pages maximum between all participants and this means some papers may not be accepted. Therefore we advise you to send in your papers as soon as possible.

We use an Adjudication academic panel of 4 Professors of Economics to decide on suitability should we need to refer the paper to them during the publication period. However we give advise during the process so in practise it is not common to have papers rejected. We normally aim to ask authors to make corrections if necessary and guide you on how to do that. Please ensure you submit your paper early as then you are more likely to be able to have it accepted.

Please check with us on subject and send your abstract in as soon as you can.

**Book chapter submission** – please check our catalogue for latest information about forthcoming production dates. Please ask us when to send in chapters by emailing greeneconomicsinstitute@yahoo.com. The conference information flyer also gives details of some of the book topics.

**Academic Journal Submission** We accept papers round the year on a rolling basis. However certain themes are better at certain times of the year so please email the same email address with details of what you would like to submit and we can advise you in more detail.

**Speaker and writers /Participants**

Please send in your abstracts now to GEIBooksandjournal@yahoo.co.uk

Payments are accepted via BACS, Paypal or cheque:

All places to be paid for prior to the day.

All paid up attendees are invited to contribute writing or photos for the proceedings of which they will receive a copy on arrival and the Proceedings of the 9th Annual Green Economics Conference.

Several new books will be created as a result of the conference and will be published afterwards with suitable papers in it.

**Creating a global wave of change!**

To find out more and reserve a place, workshop, offer a theme or presentation, please email us:
