# Green Economics Institute

*Reforming, Repairing and Reshaping Economics  
For all people everywhere, nature, other species, the  
planet and its systems*

## Membership benefits 2014

## Who are we?

**We** are an international Research Institute and Networking organisation, Teaching College and Book Publishers, with teams all around the world and a growing global network in over 48 countries.

**We are all working to** Reform, Repair and Reshape Economics and Finance and we have founded the new academic discipline of Green Economics to do it! We want to Reform economics for all people everywhere, nature, other species, the planet and all its systems.

**We** aim to reform mainstream economics to provide equal access for everyone whilst providing academic rigour of the highest standard in terms of new thinking in philosophy, methodology and ontology for economics. Our brand of economics is an inclusive and progressive

**We** provide award-winning training courses and we hold a variety of events throughout the year, including our Annual Conference held at Oxford University, which in 2014 will be March 31st to April 2nd 2014 at Trinity College, University of Oxford.

**Now is the time to take an active part  
in making the world a better place for  
all of us!**
