This programme is supported by the EU 'Youth in Action Programme, and aims to meet young people's changing expectations for the future job market whilst encouraging them to contribute to society.

It focuses on Green Jobs, and sustainable careers, providing young people with cutting-edge knowledge for the future labour market.

There is a distinctive European edge to this course, thus we are accepting participants from Albania, Macedonia, Malta, Italy, Ireland & the UK.

10 young people will be accepted from each country.

We provide excellent detailed and high quality training manuals for all participants.

All participants will receive Certificate at the end of the training. The training is free to participants but acceptance is competitive via application form. Some of the travel fees will be covered as well as the accommodation and food when participating.

Admission is only by acceptance of a completed application form and the 60 best entries will be selected.

The training registration is free to participants from the selected countries.
