Diary Dates 2010

Exciting programme of forthcoming events 2010

This year, we once again have an exciting programme for you to enjoy and participate in, and which is helping to influence economics structural changes and reform in the world economics agenda, and improve quality of life for everyone and to try to prevent further climate instability.

1. Venice International University, Venice, Italy, 22-24th April 2010

This conference is proving very popular already, be sure to email early for more details and let us know soon if you want to speak there.

We will run also field trips to explore the fast changing economy and ecology of the entire lagoon, as well as cultural excursions to see world famous heritage museums and sites. The ecology and economics are fascinating: you can really see tangible effects of climate change in the lagoon as well as the clash between ecology and economy played out and affecting local people. Helping promote green jobs. For more information about coming to Venice with us- please see weblink:
